The Foundation does not have a minimum grant size but the majority of our grants will fall under £5,000.

Due to the funds we have available the DWF Foundation will not fund multi-year grants.

Environmental impact

Climate change is a health issue, an equality issue, an educational issue, an economic issue, a cultural issue, a scientific issue, a security issue and a local community issue, as well as an environmental issue.

We recognise that the growing climate emergency is a serious risk and we can play a part in addressing the causes of climate change and supporting adaptation to its effects. We want to recognise and support those organisations who are considering the environmental impact in the delivery of their work and taking appropriate steps, this might be for example through the use of digital delivery to reduce travel and production costs.
