

Create a COVID-19 Resilient Workplace

DWF Risk and Resile have brought together experienced workplace health risk specialists to form an advisory panel to assist you in establishing and maintaining a COVID-19 resilient workplace.

Our panel is available to provide flexible solutions to suit your business and create a sustainable return to post-COVID operations.

Businesses need to understand the steps they need to take to comply with relevant Public Health Directives and their legislative Work Health and Safety obligations to make Australia COVID-safe.

Come back safely

- Review relevant Public Health Directives
- Effective planning
- Understand COVID-19
- Manage the workforce
- Workplace relations

Manage risk

- Manage the risk of contracting COVID-19 at work
- Safe Work Australia compliant
- Tailor a solution for your operating environment
- Meet legislative obligations to provide a "safe place of work"

Be resilient

- Manage "vulnerable" workers
- Workers who develop symptoms
- What if there is a "second wave" of COVID-19?
- Manage a COVID-19 case
- Regular review of risk mitigation

Our tiered service offering:

Basic:

One hour consult to provide advice and assistance on developing your own COVID-19 Plan.

Standard:

Desktop audit of your COVID-19 Risk Assessment and Return to Work Plan, covering Health, WHS, and Legal aspects.

Bespoke e.g.:

1. Site visit / survey of physical workplace;
2. Conduct COVID-19 risk assessment workshop and populate risk assessment;
3. Develop COVID-19 Safe Plan;
4. Workforce consultation.
