

# Claims Farming

**Savings, Minimising Claim Spend and Driving Down Claims Frequency.**

**Effective combined pre litigation and post litigation strategies make a real difference to Insurers' bottom line.**

## DWF's Experience

Working with a dedicated, specialist Whiplash Validation and Disruption Team to tackle the problem of farmed claims. DWF has designed a process from inception to conclusion of claims to ensure that any subsequent litigation is handled in a way, which supports the overall strategy.

## How we can Work with You

- DWF will work with you to assist with a bespoke, combined pre litigated and litigated workflow process.
- Identification of route to market.
- Bespoke analytics to validate or challenge the right claims to make sure your resources are appropriately deployed.
- Assist with outsourced of your claims pre litigation.
- DWF will advise on whether the claim is valid or to be defended and will assist in dealing in costs recovery sanctions.
- Through working with you on Pre Litigation Strategy, DWF can ensure that any subsequent litigation is handled in a way, which supports the overall strategy.

- DWF provides ongoing Whiplash Validation training to claims handlers and management.
- Provide Management Information to reflect savings and monitor risk list criteria to ensure we maintain current with the market.
- Identical processes in Scotland.

## Benefits to You

- You will be working with a dedicated and experienced team with a proven track record.
- You will have a bespoke Best Practice Strategy to assist you.
- You will gain brand reputation.

## Our Results

Substantial Savings and walkaways resulting in significant reduction of client's loss ratio/indemnity spend to give competitive edge.
